

21st Century Community Learning Centers Program

21st CCLC Reviewer Scoring Report – Cohort 10

Applicant Name:	Jennings County School Corporation
Proposal Ranking:	20
Average Score	113.2 / 125

Proposal Strengths:

- Your application perhaps did one of the best jobs of aligning the curricula to the Indiana academic and afterschool standards. Your schedule was detailed and comprehensive which was very helpful from a reviewer's perspective - it was also helpful that you labeled the SEL activities since that was your program focus.
- The overall proposal is very solid. Components connect throughout and will support the focus area.
- Strong application demonstrating a clear gap in after school program opportunities. Cohesive and well written, this application has clear goals and approach to achieving those goals. SEL focus is reasonable given the prevalence of drug use in this area. Academic outcomes have been tailored to each individual school based on baseline information. Partnership between school and youth service organization has strong foundations.

Proposal Weaknesses:

- It was a great application and unfortunately, I think you may have incorrectly assumed that the performance measures you added were what you needed to include, but those did not indicate how you assess them and it doesn't list the program activities. - there was an example of the table requested on page 41 of the RFP.
- No major weaknesses.
- Application missed small things that cost points here and there.

Top Areas Where Points Were Lost:

- Program Implementation
- Program Design
